

Medium Duty Portable Fume Extractor

Removing weld fumes, dust and other airborne contaminants right as they are produced, the medium duty portable fume extractor is designed for easy transport and positioning. Equipped with a Merv 15 rated Nanofiber filter that captures airborne contaminants as small as 0.5 micron, cleaner air is guaranteed. The extractor's flexible 10' externally articulated capture arm allows for easy positioning so you can remove contaminants at the source.

Features

- ✓ Compact, portable and easy to maneuver
- ✓ Capture-at-source for cleaner air
- ✓ Compliant with OSHA guidelines for controlling weld fumes
- ✓ 26" easy-to service Nanofiber filter (MERV 15)
- ✓ Rotary starter with 15' power cord and casters

Optional Filters

- ✓ After-filter module, with HEPA filter
- ✓ Spunbond Polyester Filter Cartridge (washable)

Tech Data

Dimensions:	32.5" x 37" x 96"
