

FX-RWS

Robotic Welding Stations

FumeXtractors Robotic Welding Stations are designed for modern robotic welders. FX-RWS units are a non-obstructive and effective solution to filtering the high volume of welding fumes and smoke that are produced by Robotic Welding Machines.

Features

- ✓ Powerful TEFC Motor
- ✓ 3-Stage Filtration:
 - Aluminum mesh pre-filters
 - Self-changing paper roll media
 - Teflon coated cartridge filters
- ✓ Jet pulse cleaning
- ✓ Dust clean out trays
- ✓ Durable steel construction
- ✓ Control panel
- ✓ Hands-free operation

Technical Data

Airflow: 2340/3000 CFM
Input Power: 230V/3PH/60Hz
Dimensions: 112" x 56" x 45" 112" x 71" x 45"
Compr. Air Req.: 90 PSI
Compr. Air Reservoir: 3.2 gal/8gal
Inlet Size: 15.7" x 14" 17.7" x 21.7"

Options

- ✓ 5HP or 10HP Motor
- ✓ HEPA Filtration
- ✓ Custom Sizing

Our Warranty

This warranty is for the authorized distributors and ultimate purchasers (end users) of FumeXtractors products.

FumeXtractors warrants its products for two years from ship date and covers defects in both material and workmanship. Labor and freight are not covered under the warranty policy.

Any claims made pursuant to this warranty by the customer or distributor are conditional upon FumeXtractors' inspection of the product upon which the claim is made.

Products claimed under this warranty shall be shipped directly to FumeXtractors, at Fumextractors' expense, unless otherwise stated. Approval must be issued for the warranty claim before such a shipment will be accepted. Should the claim be approved, FumeXtractors is happy to offer one of the following remedies: either a replacement of defective product, or a credit issue/repayment.

This warranty is void on all FumeXtractors products if any product has been misused, mistreated, or used other than for its specified application.
